# DANIEL HECHTER

P A R I S

---

**IN 1962, DANIEL HECHTER BROUGHT FASHION FIRST ONTO THE CATWALK AND THEN INTO THE SHOPS OF PARIS. HE MADE A NEW FASHION STATEMENT BY MAKING FASHION ACCESSIBLE AND AFFORDABLE FOR EVERYONE.**

---

He was ahead of his time. And his success speaks for itself. The increasingly popular women's and men's collections were soon joined by fashion for children, high quality home textiles and selected accessories and fragrances.

Over the years, Daniel Hechter became the brand of people for whom fashion is an expression of their personality and their attitude to life.

In 1998, the Aulbach Group took over the French label and developed it into a globally successful fashion brand.

Today, more than 50 licenses are now marketed around the globe, directly or through international partners. 700 boutiques and 2,500 point of sales in over 65 countries offers everyone direct access to the French "savoir vivre" of Daniel Hechter.

Companies also appreciate a cosmopolitan and modern appearance. That is why Daniel Hechter began developing corporate fashion collections as early as 1996. A dedicated business unit with designer teams in Paris and Miltenberg combines current fashion trends with wearing comfort, qual-

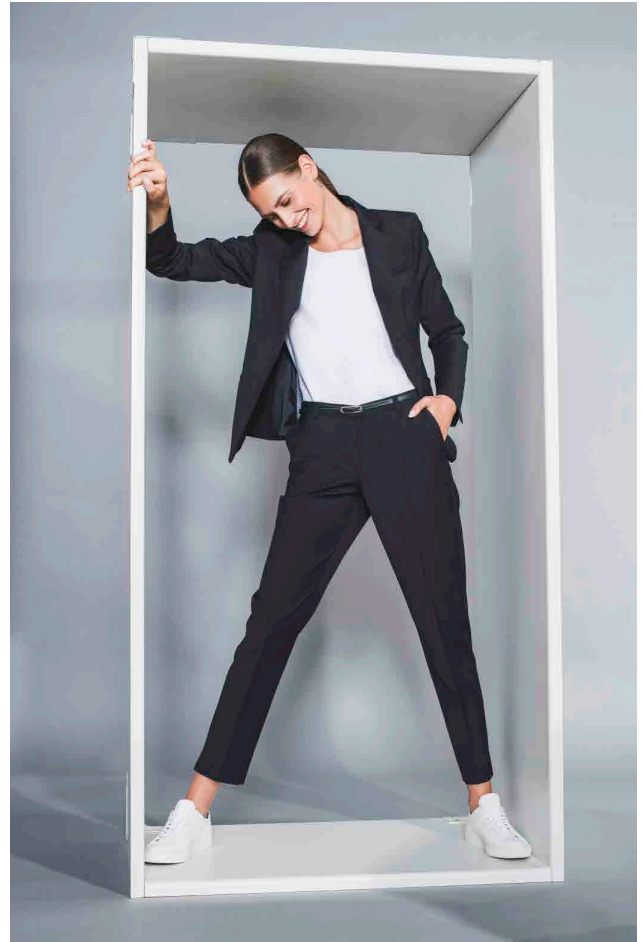

ity and reliability and a constant stream of innovative ideas.

Major companies, from all areas of business to professional sports, are already convinced by Daniel Hechter, and give a commanding presence to their brand.

# TAILORED

HIGH PERFORMANCE BUSINESS WEAR

**IF YOU WANT A STYLISH APPEARANCE FOR YOUR COMPANY AND PERFECT WEARING COMFORT FOR YOUR EMPLOYEES, OUR TAILORED COLLECTION IS THE FIRST CHOICE.**

It impresses with a modern and timeless look and features with maximum functionality, is easy-care and very durable.

The smart outer fabric made of sustainable wool and recycled polyester demonstrates a keen sense for trends. The elastic fibres offer optimal freedom of movement and wearing comfort, and guarantee high dimensional stability and a secure fit. The inside, with

contrasting lining and practical pocket solutions, is just as functional and of high quality.

The TAILORED collection offers 9 styles in 3 colourways for men and women. Thanks to a mix and match system and guaranteed colour uniformity, all items in the collection can be combined with each other as desired, creating a clear line with very personal accents.

# TAILORED

## PERFORMANCE

The outer fabrics exclusively developed for Daniel Hechter are a unique combination of sustainable raw materials and functional properties.

### COMFORT STRETCH

## SUSTAINABILITY

### RECYCLED RESSOURCE STANDARD

The polyester fibres of our TAILORED outer fabric are obtained sustainably from existing recyclable materials. Used PET bottles are recycled mechanically with little use of energy. The highest environmental and social standards apply to the entire process.

### SUSTAINABLE WOOL STANDARD

The virgin wool of our TAILORED outer fabric comes from sustainable sheep farming,. Priorities include animal welfare, based on the five freedoms of farm animals and the sustainable management of grazing land.

The virgin wool comes from sustainable sheep farming. One priority is animal welfare, based on the five freedoms of farm animals (FAWC). These include a ban on mulesing and branding, species-appropriate housing and grazing areas, and access to clean drinking water and feed at all times. Other priorities include sustainable management of grazing land and a transparent supply chain.

---

The polyester fibres are obtained sustainably from existing recyclable materials. Used PET bottles are recycled mechanically. Using little energy, they are shredded, processed and spun into new yarns. Only transparent PET bottles are recycled, which means that the critical de-colourisation process can be dispensed with. The highest environmental and social standards apply to the entire process.

---

The organic cotton used has been produced and certified according to the guidelines and standards of organic farming. When growing organic cotton, only natural products and sustainable methods are used instead of artificial fertilisers and pesticides. The use of toxic chemicals and genetically modified organisms is prohibited. Harvesting is done exclusively by hand without harmful defoliants.

# CORPORATE SOCIAL RESPONSIBILITY

## VALUES AND PRINCIPLES

---

**SUSTAINABLE AND RESPONSIBLE ACTION IS AN ACTIVE PART OF OUR DAILY WORK, AND TRANSPARENCY IN THE SUPPLY CHAIN IS JUST AS IMPORTANT TO US AS THE CAREFUL USE OF RESOURCES.**

---

With our membership in amfori BSCI, we are committed to improving working conditions across our international supply chain. Good working conditions, respect for human rights and compliance with the relevant international and locally applicable laws are top priorities for us.

To this end, we use amfori BSCI, as an association of over 2,400 companies worldwide, over 800 of them in Germany alone. amfori BSCI is based on training

and social audits and is development-oriented. We see the amfori BSCI Code of Conduct as the foundation of our actions. This is based on the recognised guidelines and conventions of the International Labour Organisation, UN declarations as well as UN Guiding Principles for Business and Human Rights, and the corresponding OECD guidelines.
